On the flip side, students also learn the dangers of poor supply chain management, and how it can damage an organization's overall health and performance.

**Supply Chain Management: Strategy, Planning, And Operation ...**

One of my favorite go-to books on supply chain management. Concise, easy to reference and topical. At this point, slightly out of date, but not so much so that most businessmen/women can't still use it to make decisions, train employees and drive business.
